Fossil Hunting For the Win!

We were able to take 11 students and three adults on an awesome field trip in September and do some fossil hunting at Caesar Creek State Park. In our lesson series, we learned that just like fossils are made in the image of something, we are made in the image of something too...God! While we are not exactly like God, we can reflect his character to the world around us when we follow his teachings and love others. Hunting for actual fossils was a really fun way to tie in real-world activities to our lessons.
